What's New, FSS?

The “**Stringtown Shootout**” occurred on August 5, 1932, in Stringtown, OK, when Clyde Barrow, of Bonnie and Clyde infamy, along with Raymond Hamilton and Ross Dyer shot it out with Atoka County lawmen. Having left Bonnie Parker with her mother in Dallas, TX, the three outlaws were travelling north in a stolen car looking for adventure when they were drawn to the live music and spectacle of a dance being held in the rural town.

Trouble soon broke out when the three strangers, in expensive suits and drinking Bootleg booze, began mingling with the locals. Sherriff Charlie Maxwell and Deputy Eugene Moore approached the men in their car and told them they were under arrest. Barrow and Hamilton responded with gunfire, catching the lawmen off-guard. Sherriff Maxwell was severely wounded and Deputy Moore was killed. Barrow and Hamilton fled in the stolen car leaving Dyer behind, who managed to slip away after mingling with the crowd.

Emailing Daily Reports

FSS is continually updating and improving our loan accounting software. One of our most recent, and popular, additions is the ability to email the daily closing reports.

This function is ideal for owners, area supervisors, and managers who want to see a summary of the day's business as soon as the report is generated. Because we're sending the report via email, you don't have to log into the local office computer, or into your Home Office Supervision program from your computer or laptop to view them; just open the email attachment from wherever you are because end-of-day reports can be viewed on your smart-phone, or other mobile device.

There is some set-up required to activate this function in your software. You may experience issues with certain email providers. Our friendly support staff is standing by to help you get started. If you would like to start taking advantage of this useful new option, please give us a call today at 405-794-4900.

Special Offers – Credit Reporting

Because of the high number of responses, **we are extending the special Credit Reporting offer through August and September.** In case you were not aware, our software provides the ability to electronically report your borrowers' credit history to Experian, Equifax, and Trans-union.

Here's how it works. LoanPro creates a file containing your borrowers' payment history at the end of each month for submission to the credit reporting agencies; this happens automatically, so you don't have to remember to do it. Just close the month as usual, and the file is created and transferred to us that evening. We upload the files to credit bureaus for you, so you don't have to do anything; just sit back and enjoy the peace of mind knowing your customers' credit information is being reported.

This valuable service is only \$25.00 per month, but if you sign up in the month of August or September, we **will waive the first two month's** service charge*. Get started reporting your borrowers' credit right away, and get two months of the service absolutely **FREE.** Give us a call today and start taking advantage of Credit Data Processing (CDP) service at 405-794-4900.

*Please note: this offer applies to the FSS service fee only. You must have an account with at least one of the three credit bureaus, and any fees they charge you in association with credit reporting will still apply.

Dated Service Agreements

Recently, we began the rigorous process of reviewing all sales and service agreements on file for each of our many customers. A number of forms, including software license agreements, service agreements, and disclaimers are required for all offices using FSS loan accounting products. In order to ensure all of them are up to date, and on file, Emily has been working diligently to identify any that are missing or require update.

The process is ongoing, but be aware that over the next few weeks (possibly months), we will be providing customers with new forms where necessary. Our plan is to provide these forms via email for electronic signature for greatest convenience. In cases where this is not an option, we will send via USPS.

If you receive a communication from us including new or updated service agreements, we ask that you please sign and return at your earliest convenience. If you have any questions about the agreements' terms or conditions, or if you feel you have received the form in error, please contact us.

Understand that we will only request new or updated agreements, licenses, and disclaimers that are required for the legal use of our loan accounting products, and for which, we must retain a signed copy on file. We thank you in advance for your cooperation. For questions or concerns, give Jim or Emily a call and they will be happy help.

The summer convention season is winding down, and we wanted to take this chance to say a special Thank You! to everyone who stopped by to visit our booth, or took time to visit with us during a convention activity at one of the various destinations we visited.

For us, the best part of being on the FSS team is getting to meet, and especially getting to know, our customers. If you took time to say hello recently, we want you to know we appreciate your time and enjoyed talking with you! We look forward to seeing you again soon.
